

Ranjeet Singh

FULL-STACK DEVELOPER

ranjeetbuk96@gmail.com | [Portfolio – thecodechaser.com](https://thecodechaser.com) | [GitHub](#) | [LinkedIn](#) | [Twitter](#) | [Medium](#)

SUMMARY

Full-Stack Software Engineer with expertise in JavaScript, React, Vue.js, Spring Boot, and AWS. Passionate about building scalable applications, optimizing performance, and writing clean, maintainable code. Experienced in API development, database optimization, and cloud services. Thrive in collaborative remote environments and enjoy mentoring developers.

SKILLS

Programming Languages: JavaScript, Java, Ruby

Front-End: React.js, Vue.js, Redux, Vuetify, Tailwind CSS, HTML5, CSS3

Back-End: Spring Boot, Ruby on Rails, Node.js

Databases: MySQL, PostgreSQL, Elasticsearch

DevOps & Tools: AWS, Docker, Git, GitHub, Webpack, Postman

Soft Skills: Remote Work, Code Reviews

EXPERIENCE

Full-Stack Developer | Kwanzoo (Oct 2022 – Present, Remote)

- Revamped the Kwanzoo dashboard with a modern UI, migrating to a new front-end project.
- Optimized API performance by creating Elasticsearch snapshots, improving response times.
- Developed new features & fixed critical issues used by 20+ B2B clients.
- Led end-to-end implementation – from development to testing & AWS deployment.

Code Reviewer | MICROVERSE (Jan 2022 – Mar 2024, Remote, Part-Time)

- Reviewed 100+ projects from junior developers, ensuring they met technical requirements.
- Provided code quality improvements and best practices for performance optimization.
- Assisted developers in debugging, refactoring, and writing clean, maintainable code.

PERSONAL PROJECTS

Book Appointments (Full-Stack Web App) – Ruby, Rails, React, Redux, JavaScript, HTML5, CSS3.

- Developed a doctor appointment booking platform with user authentication & role-based access.
- Built RESTful APIs in Ruby on Rails and a responsive front-end with React & Redux. [GitHub](#)

Recipe App (Full-Stack Web App) – Ruby, Rails, HTML5, CSS3, Tailwind.

- Created a platform where users can add, manage, and share recipes.
- Designed a responsive UI using Tailwind CSS and Rails for back-end logic. [GitHub](#)

EDUCATION

Kalinga University

Bachelor of Technology in Computer Science (July 2019 – June 2022)

- Developed a BloodBank application using Java, JavaScript, and MySQL as a capstone project.
- Gained expertise in software development, database management, and system design.

MICROVERSE

Remote Full-Stack Web Development Program (Oct 2021 – May 2022)

- Completed 1,300+ hours mastering React, Redux, Rails, and JavaScript through hands-on coding.
- Built real-world projects in a remote, collaborative environment using GitHub & Agile.

Teerthanker Mahaveer University

Diploma in Computer Science (July 2016 – June 2019)

- Completed a Java-based CMS software during a 3-month university internship.
- Studied computer fundamentals, software development, and algorithms.
